

Temporary Traffic Control: WU-7000 OmniBrite

Use roll-up signs made with OmniBrite™ WU-7000 sheeting to help drivers navigate the temporary lane closures of rolling work zones and utility work, or caused by emergency incidents. OmniBrite is roll-up sheeting engineered to exceed industry performance standards for retroreflectivity, durability, and workability. With best-in-class performance, OmniBrite is the only roll-up sheeting you'll need, available when you need it.

Features and Benefits

- Proprietary UV stabilizers provide best-in-class durability
- Tough, tear-resistant backing improves durability & handling
- Double welded borders prevent moisture intrusion
- Industry-leading warranties
